The items below are the needed items to be purchased for gameboard construction. The team needs these items so that an accurate depiction of the gameboard can be recreated for robotic testing purposes. The gameboard will also help the team with visualization of tasks and goals of the competition. The items needed can be found below. The link provided for the cardboard "buildings" requires a minimum of 100 boxes to be bought. For this reason, the team will buy the boxes in person. The team will also buy 2x4's in person.
